

Program providing bus services to bring students from under-resourced schools to a university fair held in Mongolia.

THANK YOU to all International ACAC members from Mongolian students!

Thanks to International ACAC Opportunity Grants, Mongolian high school students who live out of Ulaanbaatar city (capital city) or live ger district (under-resourced) had a chance to participate at the Global University Fair 2019 which annual organized by EARC Mongolia and ISU (International School of Ulaanbaatar) in Ulaanbaatar city. We provided 7 free buses for students to go to the fair venue at the ISU. During the fair event, these students met with school admission representatives from 37 universities and colleges in 13 countries. Students received the update and comprehensive guidance about school programs and the admission process and financial aid. We believe it will inspire students to reach their future academic goals and to study overseas.
